Krishna,

Naveen won't be calling him, but I just briefly talked to him. He's interested in both air and water permits, I'll be directing him back to the district.

Thanks,
Sheila

Thanks Sheila!

Does that mean she will call Unrelated/Unresponsive back specifically in response to this inquiry?

Since Unrelated/Unresponsive called the EPA it would be good for one of us to call and let him know this. If we don't ever see or review this permit, that would be helpful information to relay as well. This way he knows the appropriate contact for this would be the state and not EPA.

Subject: RE: Contact RE: Rosemont Copper Mine

I just contact Naveen Savarirayan from ADEQ, she said they are in the beginning phases of processing Rosemont Copper Mine renewal permit application. Please see below for her contact information, she'll be the one responding to those inquires.

Naveen Savarirayan
Manager,
Air Permits Unit,
Facilities Emissions Control Section,
Air Quality Division
Office: 602-771-2285
Cell: 602-397-8395

Thanks,

Subject: RE: Contact RE: Rosemont Copper Mine

My Arizona staff is out on travel today to double check. However, I've not heard of any new activity on Rosemont.

I'll pass this on to Sheila Tsai of my staff to follow-up when she gets back to the office.

Krishna - As I explained during our phone conversation, my office had the lead for NEPA/309 Review of the Forest Service's EIS; Wetlands Section has the lead for working with the Corps of Engineers on review of the CWA section 404 permit application (Corps has not yet made a permitting decision) and I think the air permit was issued by ADEQ. Colleen was our contact whenever air issues came up, and I don't know if anyone in Air Division is currently working on anything related to Rosemont. I assume Gerardo would know. [Redacted] should probably be referred to someone at ADEQ for info about the air permit.

-Kathy

Thanks for the call back, Kathy.

It seemed from the message that the caller was asking air permitting related questions. Are we working on any air permits related to Rosemont Copper?

If not, I would like to hand this off to someone who has actually worked on it so they can properly assess the callers interests and get his questions answered.

Is there not a project lead for this from EPA?

Subject: Contact RE: Rosemont Copper Mine

Hi Kathy,

I work for the air office in Tucson, AZ. I received a call late yesterday asking about EPA's views on the Rosemont Copper Mine. Would you or someone that you know be the contact to answer some questions the caller had. If not would you please direct me to the right contact?

The caller's name [Redacted] **Citizen Name / Ex. 6**

Thanks,

Krishna
